### Implementation Guidance

#### ***How to use the decodable texts***

The decodable texts should be used in conjunction with Springboard’s Reading Readiness and Phonics curriculum. These texts provide students with an opportunity to extend their learning by practicing the targeted phonics skills within a text. Additionally, the decodable texts can be used during Small Groups with Stations as an independent work station.

#### ***Determining which decodable texts to use***

Springboard recommends teachers use observational data, Reading Readiness and Phonics formative assessment data, and their professional judgment to determine which decodable texts to use with students.

#### ***Accessing the decodable texts***

The table below is organized by the Reading Readiness and Phonics unit and phonics skill. When available, there are two options listed for decodable texts that are aligned to the specific Reading Readiness and Phonics skill. The decodable texts are found on websites not maintained by Springboard. Teachers may find it helpful to download these materials directly from the website for future use.

*Springboard has reviewed all resources linked in the table below for alignment to Springboard’s core values. Springboard has not reviewed all resources found on each website; **the teacher should use their professional judgment in determining which resources to use with their students.***
