

Lesson 1

Lesson message:

Hello Students! Today we are going to explore responsible **decision-making**. How do you make caring choices about your behavior and interactions in different situations? When you practice responsible **decision-making**, you can make choices and decisions in different situations. This happens when students listen, share, and work together. We can all do it! We are going to have a great day!

Daily message

Before beginning, write the Daily Message on chart paper or the board. Invite students to join the circle and sing the welcome song while gathering.

Welcome, welcome, welcome to you. We are beginning. We are so happy to see you!

Read aloud the daily message text to students. As you read aloud, think aloud pointing to words and describing meaning. Show students complete sentences and explore nuances in word meanings in the daily message.

Lesson 1

Academic vocabulary

I am going to read our Daily Message again. When I am reading the Daily Message aloud, I want you to think of any words you hear that you do not know.

Read the Daily Message straight through, this time demonstrating automaticity, appropriate intonation, and expression.

Think about the words that you noticed that you did not already know.

Ask students to share the words they noticed with a partner and what they might mean. Listen in to their discussions to see if they chose the same word you planned to highlight today.

Let's explore the unknown words together. What vocabulary words do you notice?

Allow students to share the vocabulary words that are new to them.

Lesson 1

These are all awesome words to explore! Today, we are going to zoom in on the word **decision-making**. The word decision-making refers to how to pick from available choices. How do you make a responsible decision? The better choices you make, the better decision-maker you'll become!

Share time

We are going to discuss how we show responsible decision-making in our own lives.

Share one time you have shown responsible decision-making in your own life as a model for students. For example, share a time when you had to make an important/ responsible decision, such as finishing a chore before watching TV.

Think of an example when you had to make a responsible decision. Be ready to share with a partner. Turn to the person next to you and share your thinking.

Give students time to share with a partner.

Lesson 1

Can anyone relate their responsible decision back to our vocabulary word, decision-making? How can your responsible decision-making help you listen to your friends, share, and work together?

Listen as students share to assess student understanding of SEL: Responsible Decision-Making focus and ability to provide additional detail about familiar things. At the end of the time period, thank the students for sharing and remind them to practice responsible decision-making.

Thank you for sharing your wonderful thoughts today. We did it! Remember to practice your responsible decision-making!
